EDUCATION

• Bachelor of Engineering in Computer Science and Engineering

2023-27

Karpagam institute of technology, Coimbatore

CGPA:7.6

PERSONAL PROJECTS

• Student's GPA - CGPA Calculator Website

A website that used to calculate the GPA - CGPA of the Students

- Engineered a GPA and CGPA calculator used by 100+ students for academic evaluation.
- Automated grade computation using dynamic inputs for credits and grades.
- Technologies used: HTML, CSS, JavaScript.

• Warehouse Management System

Created a Spring Boot backend supporting role-based login and feature access control.

- Designed a backend system handling 3+ modules including authentication, inventory, and order management.
- Implemented secure REST APIs for role-based user access and data operations.
- Handled 3+ modules including authentication, inventory, and order management.
- Technologies used: Spring Boot, MySQL, REST APIs.

• Movie Ticket Booking System

Built an OOP-based application to manage movie ticket booking with structured system design.

- Architected an OOP-based system supporting 5+ features including seat booking and user management.
- Applied OOP principles such as inheritance, polymorphism, and encapsulation.
- Technologies used: Java, OOP Concepts.

• Voice Controlled Car (IOT)

Voice-controlled system enabling real-time movement of a robotic car using mobile commands.

- Constructed a voice-controlled robotic car with real-time response under 1 second.
- Integrated Bluetooth communication between mobile device and hardware system.
- Technologies used: Arduino, Bluetooth Module, Android.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner (CLF-C02):** Knowledge of AWS cloud services, architecture, billing, and security fundamentals.
- **NPTEL – Programming in C:** Strong understanding of C programming, pointers, memory management, and problem solving.
- **NPTEL – Software Testing:** Learned software testing methodologies, test case design, and quality assurance techniques.
- **Java Training – IIT Bombay:** Gained solid foundation in Java programming, OOP concepts, and application development.
- **CodeChef – Problem Solving (Java):** Improved algorithmic thinking and competitive programming skills using Java.

TECHNICAL SKILLS AND INTERESTS

Languages: JAVA, PYTHON, SQL, JAVASCRIPT

Web Technologies: HTML/CSS, React

Tools and Platform: GitHub, Git, VS Code, Postman

Cloud/Databases: MySQL, AWS

Core Concept: Data Structures & Algorithms, OS, Object Oriented Programming, DBMS.

Areas of Interest: Agentic AI, Cloud.

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability

POSITIONS OF RESPONSIBILITY

• AWS Cloud Member (Designer) Cloud / Technical Team

Present

- Designed and contributed to 2+ AWS-based cloud workflows and solution architectures.
- Collaborated with 3+ team members to implement deployment workflows and service integrations using AWS services.
